

Integrated Justice Information System -- No. 340200

Category General Government
Subcategory Technology Services
Administering Agency Technology Services
Planning Area Countywide

Date Last Modified January 08, 2008
Required Adequate Public Facility No
Relocation Impact None.
Status On-going

EXPENDITURE SCHEDULE (\$000)

Cost Element	Total	Thru FY07	Est. FY08	Total 6 Years	FY09	FY10	FY11	FY12	FY13	FY14	Beyond 6 Years

Total	13,367	5,936	7,431	0	0	0	0	0	0	0	0

DESCRIPTION

The Integrated Justice Information System (IJIS) will facilitate the exchange of data about criminals and criminal activity between Montgomery County agencies, the State of Maryland, and the Federal government. IJIS will simplify the steps for users to access data such as warrant and criminal background checks, while maintaining proper security and automatically exchanging data between appropriate agencies and systems. IJIS will be designed, implemented, and maintained to provide timely and appropriate data to field personnel in a clear and effective manner. Most field personnel will log on via a secure web site and view a simple menu of reports to access the data appropriate to their job function (e.g., a criminal background check on prisoners about to be released). IJIS will also be capable of routing data and/or warnings to the appropriate systems and personnel when certain events occur (e.g., if a person in the custody of the County is listed on a warrant from another jurisdiction). IJIS will link different data systems that are required to exchange data (e.g., arrest data between the Police department, the State of Maryland, the Courts, the Department of Correction and Rehabilitation, and the Federal Bureau of Investigation). IJIS will be designed with modern internet-based architecture, open standards, and security features that meet current demands for information exchange and are highly flexible. IJIS will be flexible enough to allow individual agencies to improve internal information technology architecture for business process improvement, while maintaining proper links to other agency databases crucial to public safety.

CAPACITY

IJIS will directly improve the delivery of public safety services to the estimated 1 million residents of Montgomery County and facilitate easier data transfers between Montgomery County and both the State and Federal public safety agencies.

JUSTIFICATION

Criminal justice agencies in Montgomery County have embarked upon major business process changes by introducing the use of open and flexible information technology systems. Currently criminal justice agencies utilize a single system to hold criminal justice-related data known as the Criminal Justice Information System (CJIS). CJIS has reached the end of its useful life, especially with respect to changes to data structure and functionality. As new systems go on-line, data must still be exchanged between all the criminal justice agencies (e.g., outstanding arrest warrants, warnings about former prisoners if they are picked up in an arrest after their incarceration, domestic violence information, etc.). If this data is not exchanged properly, the lives of public safety personnel and the general public could be endangered. An interagency project team has developed a detailed design and business process analysis for an Integrated Justice Information System (IJIS) that will ensure that criminal justice agencies can accomplish their individual mission goals, while still exchanging data that is vital to the public's safety.

CJIS Long-Range Planning Project Final Strategy Report (2000); Corrections and Rehabilitation Information Management System Report (2001); State's Attorney's Office Case Management System Phase 1 (1999) and Phase 2 (2001) Technology Investment Fund Programs of Requirements; Integrated Justice Information System Architecture and Business Process Integration Report (2002); Circuit Court Integrated Case Management System (2003); Gap Analysis for New Dawn Technologies (2006); Correction and Rehabilitation Information Management System (CRIMS) COTS Analysis Document (2006).

APPROPRIATION AND EXPENDITURE DATA

Date First Appropriation	FY02	(\$000)
First Cost Estimate	FY07	13,367
Current Scope		
Last FY's Cost Estimate		13,367
Appropriation Request	FY09	0
Appropriation Request Est.	FY10	0
Supplemental Appropriation Request		0
Transfer		0
Cumulative Appropriation		13,367
Expenditures / Encumbrances		7,084
Unencumbered Balance		6,283
Partial Closeout Thru	FY06	0
New Partial Closeout	FY07	0
Total Partial Closeout		0

COORDINATION

Department of Technology Services
Criminal Justice Coordinating Commission
and member agencies
Office of Management and Budget
Office of Intergovernmental Relations
State of Maryland
United States Department of Justice
Public Safety Communications Systems
project team

MAP

OTHER

Funds may not be spent on the development of requirements for the Circuit Court Case Management System (\$300,000) or the RMS modifications and enhancements identified for FY07 (\$204,000) until 30 working days after the County Executive has provided the Council with a report on the cost for the SAO Case Management System and CRIMS. The reported cost must be based on the actual negotiated price or, if there is no negotiated price, the price provided by a vendor in response to the County's solicitation.

FISCAL NOTE

On October 22, 2002, the County Council approved a supplemental appropriation for \$2.0 million from Federal, State and Local Preparedness earmarked funds, which are administered through the Byrne Discretionary Grant Program of the Department of Justice (DOJ). On December 10, 2002, the County Council approved a supplemental appropriation of \$0.4 million from the Local Law Enforcement Block Grant, also administered by the DOJ. The Amended FY03-08 CIP appropriated an additional \$2.754 million from a Federal grant administered through the COPS Grant Program of the DOJ. The FY05 capital budget appropriates the balance of \$226,000 in Federal aid from the COPS grant.
